DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 5, 6, 10, 11, 15-20, and 25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1, 11, and 25 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claims 1 and 11, "logic coupled to the switch for combining the plurality of received signals according to a predetermined logic function comprising an OR logic function."

As in claim 25, "wherein the third node is coupled to the first common channel, the fourth node is coupled to the second common channel, and the first, second, third and fourth nodes are cross-coupled; wherein the third node is in the first error containment region, and the fourth node is in the second error containment region."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
